

## **Vision Mission of Institute:**

### **Vision:**

To impart quality technical education for creating competent and ethically strong professional with capabilities of accepting new challenges.

### **Mission:**

- Our efforts are dedicated to impart quality technical education based on a balance program of instruction and practical experiences.
- Our strength is to provide value based technical education to develop core competencies and ethics for overall personality development.
- Our endeavor is to impart in depth knowledge and versatility to meet global challenges.

## **Vision Mission of Chemical Engineering Department:**

### **Vision:**

To impart quality technical education for creating competent & ethically strong professionals in Chemical Engineering Department with capabilities of accepting new challenges.

### **Mission:**

- Our efforts are to develop quality technical manpower through interactive communication, short term training program, seminars, group discussions etc.
- Our strength is to provide vigorous class room instructions and laboratory experiences using modern equipment and computer based broad insight to develop core competences.
- Our endeavor is to impart in depth knowledge by initiating collaborative real life project with nearby industries which in turn increase the capabilities of to meet global challenges.

## **Vision Mission of Mechanical Engineering Department:**

### **Vision:**

To impart quality technical education for creating competent and ethically strong professionals in Mechanical Engineering Department, with capabilities of accepting new challenges.

### **Mission:**

- Our effort to provide conducive environment for learning and exploring full potential of student in the field of Mechanical Engineering.
- To mould budding Mechanical Engineers by exposing them to current areas in Design, manufacturing, energy, thermal science and related interdisciplinary areas.
- To enhance their skills to make them globally and ethically competent professionals.

### **Vision Mission of Electronics and Telecommunication Department:**

#### **Vision:**

To impart quality technical education in the department of Electronics and Telecommunication Engineering for creating competent and ethically strong Engineers with capabilities of accepting new challenges.

#### **Mission:**

- To establish and create student centered learning environment.
- To provide education which encourages creativity and ethical values for promoting activities addressing the needs of the society.
- To train the graduates for design and development in the field of Electronics and Telecommunication Engineering and apply technology to meet the global challenges.

### **Vision Mission of Information Technology Department:**

#### **Vision:**

To impart quality technical education in the department of Information Technology for creating competent and ethically strong professionals with capabilities of accepting new challenges.

#### **Mission:**

- To provide learners with the technical knowledge to build a lifelong career in Information Technology Domain.
- To develop ability among the learners to analyze, design, implement engineering problems and real world applications by providing novel Information Technology solution.
- To promote close interaction among industry, faculty and learners to enrich the learning process and enhance career opportunities for learners.
